

Dear Patients,

I am always looking for technology that increases my patient's recovery, especially from chronic conditions. In the past several years I have been researching low level laser (cold laser) therapy.

After I attended a post graduate training course presented by Erchonia Corporation on the benefits of low-level laser therapy, I am pleased to announce the availability of this new therapy for my patients.

The Erchonia Laser was granted market clearance by the FDA after completing 2 randomized double-blind clinical trials in which 66% pain reduction was observed after a single treatment!

The Better Way to Treat Chronic Pain

VS.

Erchonia's Lasers are FDA Marketed Cleared
